ABSTRACT

- E-Pension is an initiative of directorate of pension, provident fund and group insurance. E-pension system which allows filling up of pension forms, checking, verification and payment using an online system. The aim of e-pension is to minimize the processing time and manual system. This web-based pension fund management system can make pension process efficiently. The portal is designed to minimize the physical movement of voluminous papers related with pension cases & also to minimize the time consumed.

- INTRODUCTION

Pension fund is any plan, fund, or scheme which provides retirement income. The web-based pension management system will increase the efficiency of PFAs in responding to the needs of their clients in time and also increase communication flow between both parties. This work focus on designing a web-based pension fund management application to replace the manual system, thus getting rid of the hurdles involved in the traditional pension management process.

- AIM

“e-Pension” portal is an employee-centric workflow based strategic administrative reform initiative of Directorate of Pension, Provident Fund and Group Insurance, Finance Department, Govt. of West Bengal to provide end-to-end solution to matters related with settlement of Pension and other retirement benefits to the employees of Institution receiving Grants from the State Government

OBJECTIVE

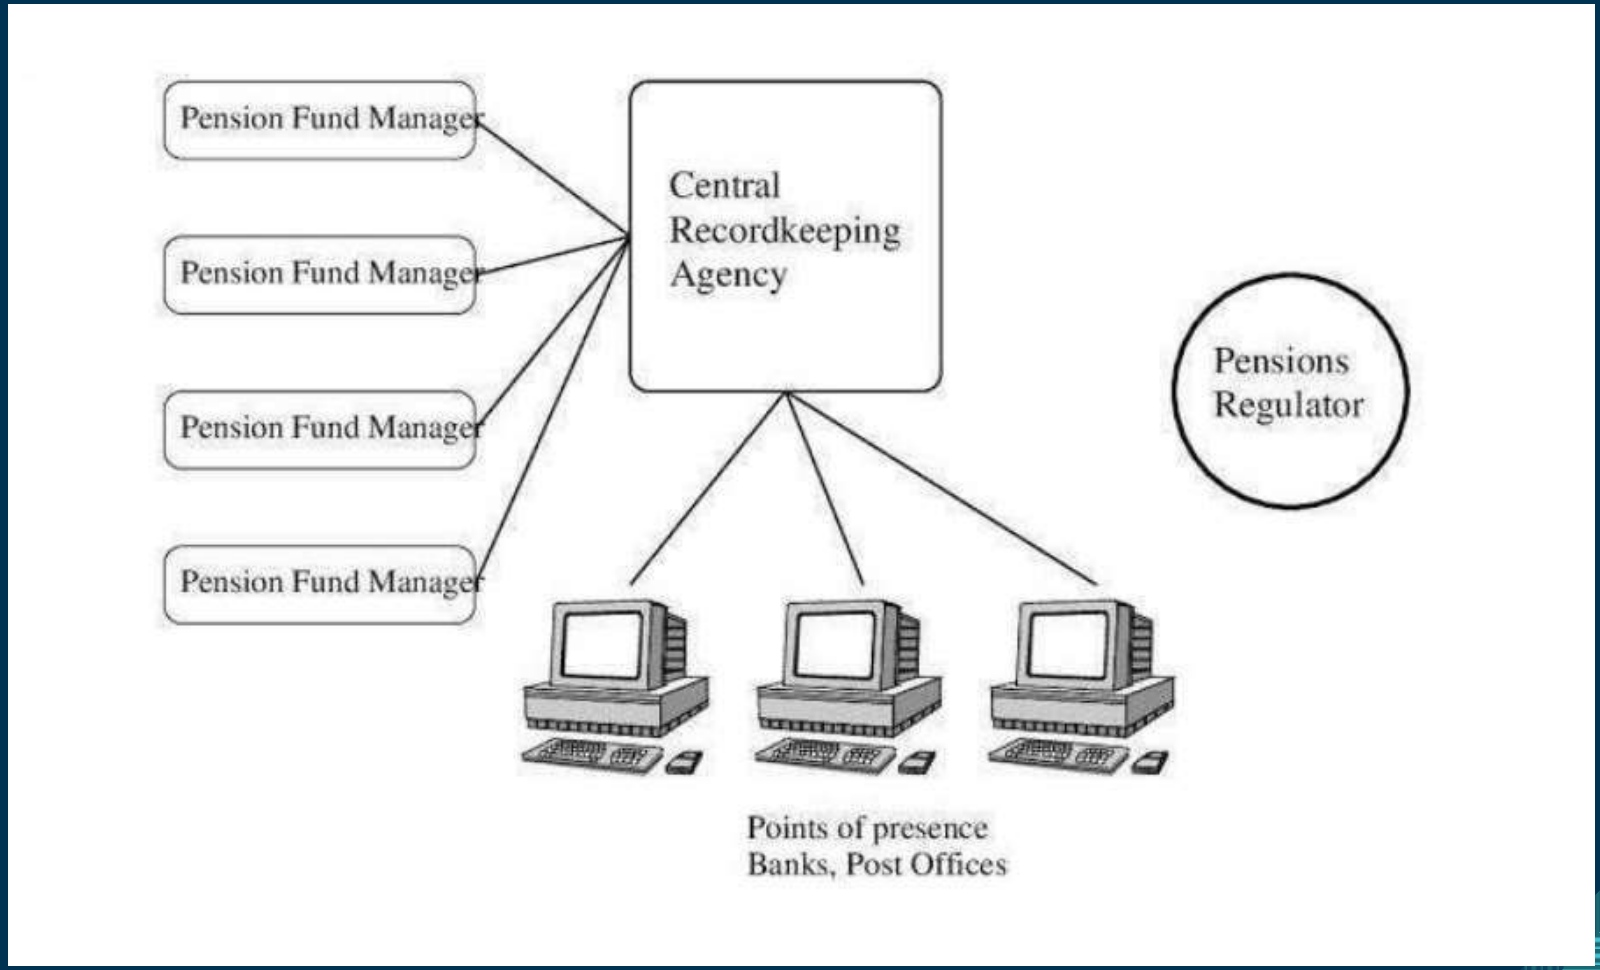
This project covers all the stakeholders from Applicant to Pension Disbursement Officer under single portal leveraging the benefits of Information & Communication Technologies (ICT).The project is aimed to bring a positive deviation from the present system based on physical records and manual procedures by minimizing the physical movement of files & papers and the expediting the processing, approvals and communication.

The main objectives are:

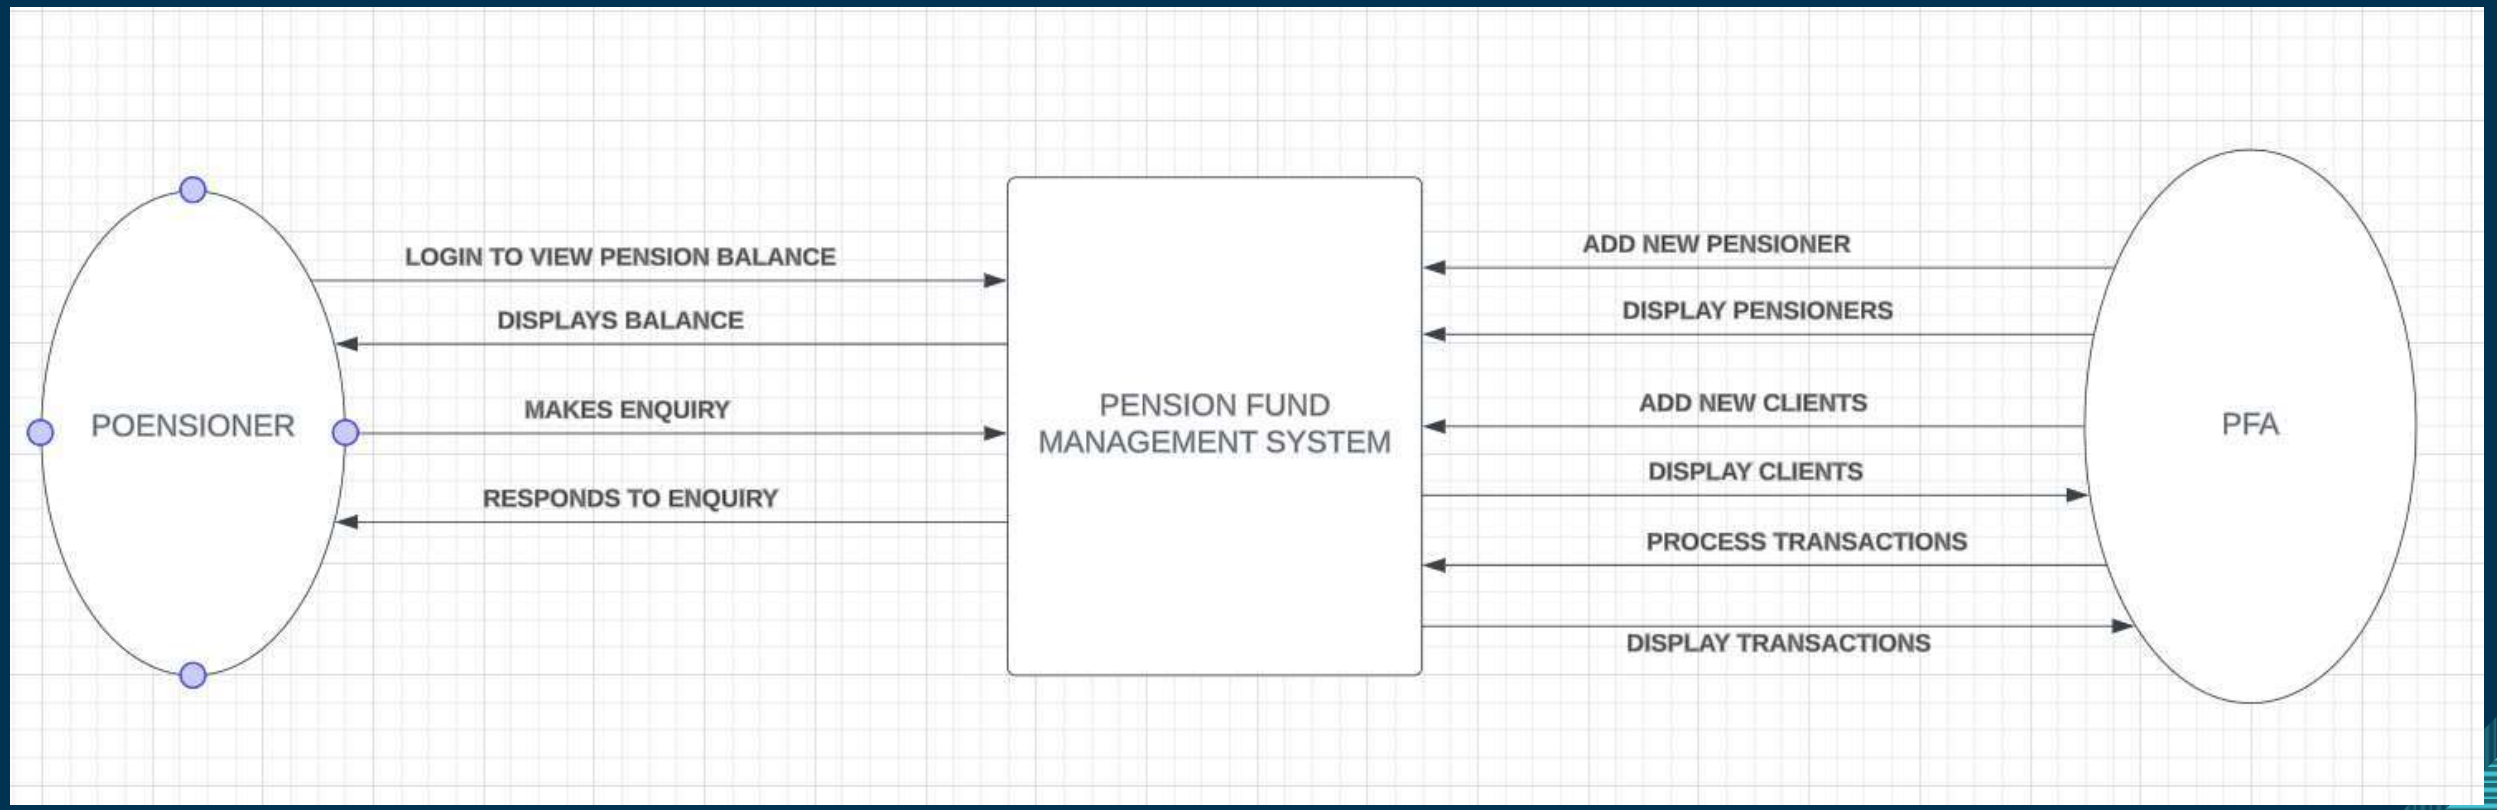
1. To minimize the time required for fund transaction.
2. To improve transparency regarding pension funds.
3. To track employee/pensioner information and accounts.
4. To manage funds and investments.
5. To maintain a good management practice
6. To improve security.
7. Provide easy access to the scheme introduced.
8. To increase reliability and eliminate errors.

Architecture and Design Aspects:

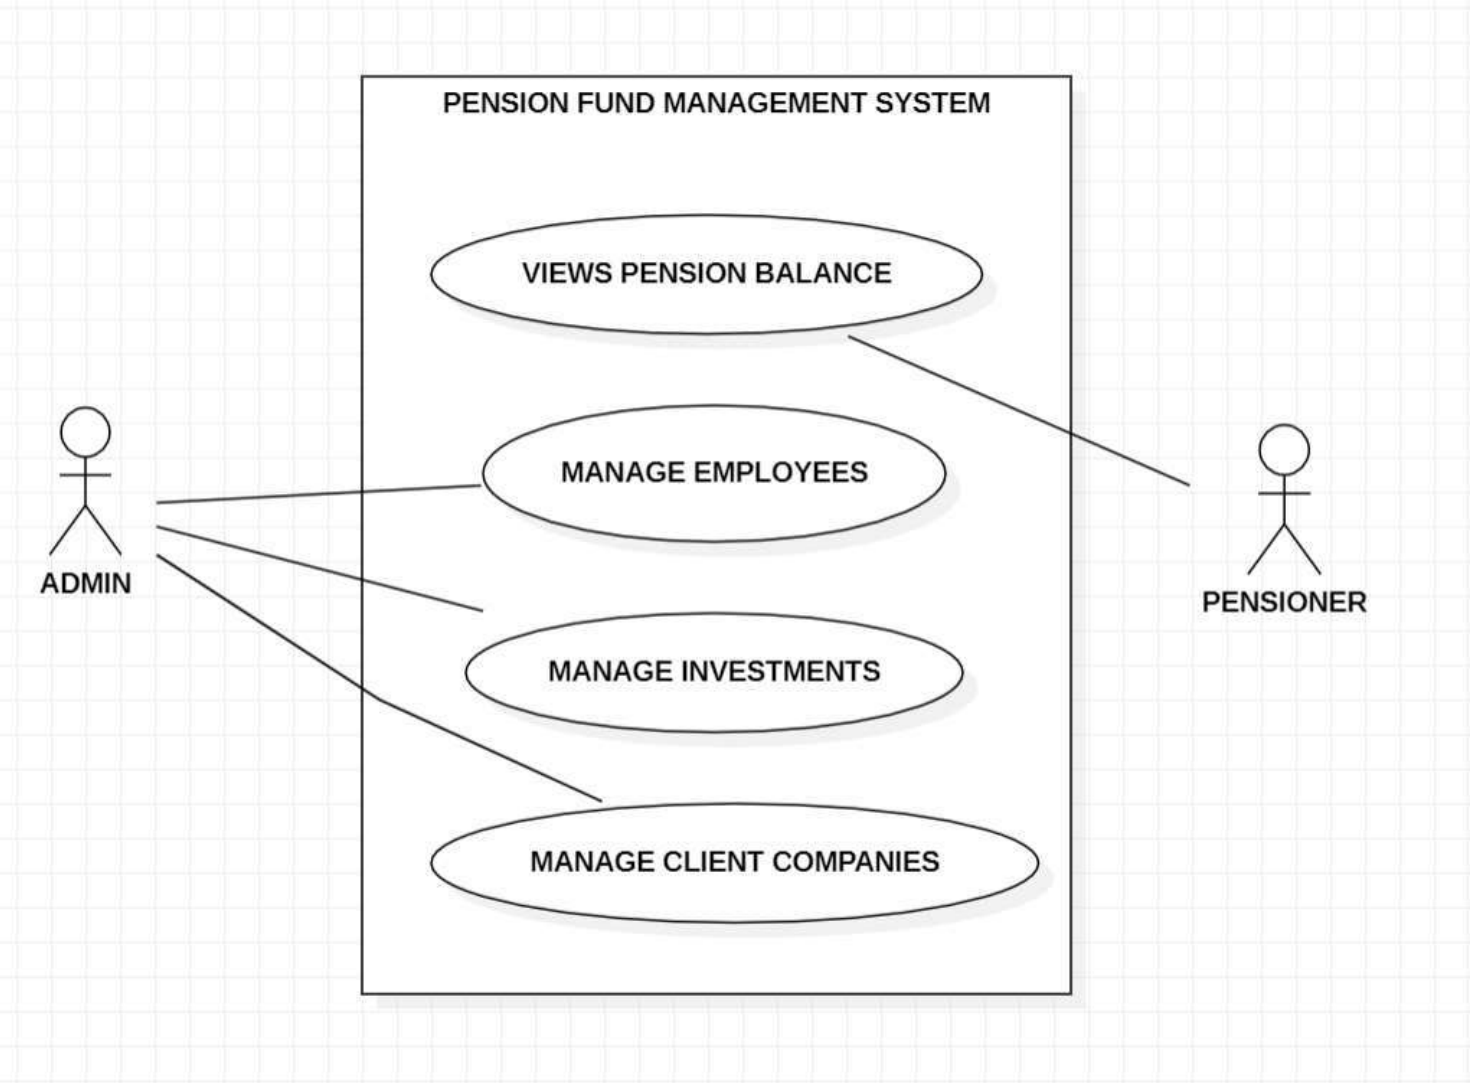
This is the architecture diagram of our system that is used to abstract the overall outline of the software system and the relationships, constraints, and boundaries between components. It is an important tool as it provides an overall view of the physical deployment of the software system and its evolution roadmap



ER DIAGRAM OF THE PROPOSED SYSTEM



USE CASE DIAGRAM



TECHNOLOGY USED

Software Resources:

- HTML Interface
- Operating System

Hardware Resources:

- Personal computer
- Viable data connection
- Good Processor

Block Chain Technology:

- Block chain is a revolutionary computer-based record-keeping technology that functions as digital ledger, comes at a crucial time and may represent the savior of pensions everywhere.
- Block chain technology can reduce the complicated layers of pension management and give pensioners more control over their money.
- Block chain technology provides greater transparency for and gets rid of exclusive intermediaries in the pension-managing process.
- A block chain is essentially a digital ledger of transactions that is duplicated and distributed across the entire network of computer systems on the block chain.

Standards Used:

STEP-1:

Content security policy:

✓ Content security policy is an emerging browser standard. The idea is to create a standardized framework to provide browser-based protection will stop XSS,with less developer involvement.

✓ In order for content security policy to be effective, all JavaScript that's Embedded in HTML needs to be removed and developed in separate external JavaScript file.

✓ From this point, if a content security policy aware browser detects JavaScript Embedded in a HTML document- for example a hacker tries to insert it- the Action is rejected. This really locks down the browser, preventing many forms of XSS attacks.

STEP-2:

✓ Requires less code, downloads faster.
✓ May render faster in browser.
✓ Can eliminate some JavaScript, effects may execute faster.
✓ Simplifies updates and maintenance of site content and code.
✓ Adapts more easily for display on mobile devices and other display sizes and for Print.
✓ Generally, HTML with CSS offers a streamlined alternative to older; code heavy Methods of implementing web designs. In general a site employing CSS

OPEN STANDARDS

- ISO/IEC 18039:2019

  It defines the scope and key concepts of mixed and augmented reality

- ISO 9001-2015

  Ensure that customers get consistent, good quality products and services

- ISO/IEC 27001

  It is an international standard on how to manage information security

- ISO/IEC 27032

  This standard address on preservation of confidentiality, integrity and availability of information in blockchain technology

<h1>Additional Pension</h1></div></center>
<dl>
<font size="4.7">
<strong><dt>1.What is additional pension?</dt></strong>
<dd>- This is a pension you can receive in addition to your standard benefits
from the NITPS.</dd>
```

</dl>

<dl>

<dt>2.How much additional pension can I buy?</dt>

<dd>- The maximum annual pension you can buy is 5,500. You can buy this at different times in multiples of 250 of annual pension.</dd>

</dl>

<dl>

<dt>3.How do I pay for my additional pension?</dt>

<dd>- You can choose to make a one off payment, or you can have deductions taken from your salary.</dd>

</dl>

<dl>

<dt>4.How much will my additional pension cost?</dt>

<dd>- The cost is calculated using a number of factors such as your age and the amount of additional pension you want to buy.

An example to illustrate possible costs would a 50 year old female who would have to pay 4040 to buy 250 of additional pension benefits for personal and dependants.</dd>

</dl>

<dl>

<dt>5.If I decide to pay by deductions from my salary, will the payments change?</dt>

<dd>- Payments will be reviewed after each scheme valuation so they may increase or decrease depending upon the results of the valuation.</dd>

</dl>

<dl>

<dt>6.Can I continue payments if I am on unpaid leave or leave the scheme?</dt>

<dd>- No, you may only make payments while contributing to the scheme.We

will calculate how much additional pension you are entitled to receive based upon the contributions you have paid up to the day you leave the scheme. You can, however make a one off lump sum payment to clear the outstanding contributions.</dd>

</dl>

<dl>

<dt>7.Will the contributions alter if I start to work part□time?</dt>

<dd>- No, you will be required to pay the same amount of contributions as you did when you worked full-time.</dd>

</dl>

<dl>

<dt>8.If I decide to draw part of my pension before my Normal Pension Age (NPA), can I receive my additional pension too?</dt>

<dd>- Yes, provided you have paid for it in full, but the pension will be subject to an actuarial reduction.</dd>

</dl>

<dl>

<dt>9.What happens if I retire before the end of a payment period?</dt>

<dd>- You will be able to complete the payments by making a one-off payment or you can receive a pension based upon the contributions you have made up to the time you retire.</dd>

</dl>

<dl>

<dt>10.If I become too ill to work and receive an ill health pension, do I have to wait until NPA before I receive my additional pension?</dt>

<dd>- No, you will receive the full amount of additional pension.</dd>

</dl>

<dl>

<dt>11.What happens if I die before I retire?</dt>

<dd>- If you have arranged to buy additional pension for dependants, then a pension will be paid to them.

If you have only arranged to purchase additional pension for personal benefits, no additional benefits will be paid to the dependants.

If my marriage or civil partnership is legally ended, will my additional pension be taken into account as part of any financial settlement?

Yes, we will be required to provide information to the court in the same way as we are required to provide information about your scheme benefits.</dd>

</dl>

<dl>

<dt>12.Will my additional pension be paid to my family or dependants if I die?</dt>

<dd>- No, but you can also buy additional pension for your family or dependants within the maximum 5,500 limit.</dd>

</dl>

<dl>

<dt>13.Will my additional pension receive increases each year like my scheme pension?</dt>

<dd>- Yes, your additional pension will be subject to pensions increase.</dd>

</dl>

</font>

</dl>
